Portfolio

PROFILE

Senior Information & Communication Technology student at AUPP with hands-on experience in JavaScript, React, Express.js/Node.js, Python, and AWS cloud computing. Co-founder of SastraAI, an AI-powered bilingual homework tutor for Cambodian students, and co-founder of PoseUp, an AI posture-tracking app. AWS Certified Cloud Practitioner with direct experience building production features on designing user experience and leading go-to-market work. Seeking an internship or graduate program to apply strong programming fundamentals, UX/UI, and applied-AI skills to real-world software projects.

TECHNICAL SKILLS

- Programming & Frameworks: Python, JavaScript, React, Node.js, Express.js
- Cloud & AI: AWS (Certified Cloud Practitioner), applied AI/Machine Learning
- AI-Assisted Development: Codex, OpenCode, Kilo Code (access to models incl. Ling, Nemotron)
- Design & Productivity: Figma, Framer, Microsoft Word, Excel
- Other: UX/UI design fundamentals, Git/GitHub, agile teamwork

PROJECTS

SastraAI — Co-founder *2026 – Present*

- An AI tutoring platform for math and science students in Cambodia's bilingual and EMI schools, featuring a Socratic-method chat/voice tutor, OCR worksheet scanning, and Khmer/English language support.
- Contributed in building React (web + mobile) frontend
- Led customer discovery through online parent surveys, and designed a B2B2C go-to-market strategy.
- Passed Semi-Final stage at university venture capital and hackathon pitch competitions at Khmer Enterprise

PoseUp — Co-Founder & UX/UI Designer *2025*

- AI-powered web app that tracks human body posture and delivers real-time feedback; led UX/UI design.
- Won 1st Place at the National AI Competition (hosted by CADT, MOEY & RCC), earning an educational trip to Singapore.

Platypus — Frontend E-Commerce Website *2024*

- Built a responsive storefront using JavaScript and Bootstrap.

React Movie App *2024*

- Built a movie search app in React consuming a public movie API.

WORK EXPERIENCE

Intern Application Developer (3 months) *2026*

One Fraternity Co., LTD

May–August 2026

- Developed a centralized employee portal using React, TypeScript, Ant Design, and UmiJS.
- Built announcement, audience-targeting, partner-store approval, map, and Excel export features.
- Integrated REST APIs, managed organizational data, and implemented role-based access control.
- Collaborated through Git branches and pull requests to troubleshoot and deliver features.

Part-Time Marketing Strategist *2024*

TIN Cafe & Eatery

EDUCATION

Bachelor of Science, Information & Communication Technology *2023 – Present*
American University of Phnom Penh (AUPP) — Fully Funded Scholarship
